- * Office, Bank Interior & exterior
- * Showroom, outlet Interior & Exterior
- * Restaurant, Cafeteria Interior & Exterior
- * Resort, Eco- Resort, Five- Star Hotel interior & Exterior
- * All kinds of Security System

CONTEMPORARY INTERIOR DESIGN STYLE

Contemporary design is all about sleek lines and minimalist aesthetics. If you're looking to create a modern and stylish home, contemporary design is the way to go. When incorporating contemporary design into your home, start by choosing a color palette. This could be anything from neutrals to bold and bright colors. Next, choose simple furniture that has clean lines and minimal details. You'll also want to select accessories that reflect the contemporary design aesthetic think geometric shapes and metallic finishes.

MODERN INTERIOR DESIGN STYLE

A modern interior design style is defined by lean and simple color schemes, welcoming feel, lean individual elements, as well as heavy use of glass and steel and much-needed siding replacements that date back in historical times. Black and white dominate the color palette, with some faded shades of blue, red, among other prime colors.

MINIMALIST INTERIOR DESIGN STYLE

The main mantra of minimalist home decor is simplicity through and through. Keep it spare, tone decor down, pare every aspect back, and live by a "less is more" and "everything needs a place and a reason" approach. Think clean, modern lines, a tight edit, a concise color palette, and pared-down silhouettes, yet don't shy away from creating a layered, warm, rich, and inviting minimalist home with a gallery like setting from room to room as this is, after all, a place of comfort and refuge.

CLASSIC INTERIOR DESIGN STYLE

Classic style interior design has stood the test of time and remains popular to this day. It has outlived a variety of fashion trends and generations. A classic style interior can be multifaceted: cozy, modern, noble and meticulous- but never boring or bland. Elegant straight lines of warm herringbone parquet, crystal chandeliers and, stucco make the classic interior design style extremely lavish and attractive.

EXTERIOR DESIGN

This modern home has some striking contemporary elements that make it stand out. From the garage door and lighting to the driveway and planters, all of the details feed off one another. The glass balcony with iron surroundings is the perfect way to tie together this industrial design.

POOL DESIGN

Pools are multi-purpose they're fun, they provide a space to exercise, and they offer relaxation. It's no wonder so many of our homeowner clients envision including a pool in the design of their backyard. And backyard pool ideas aren't one-size-fits all. There are plenty of ways to put a unique spin on your own personal.
